## **Module One Unit 1b Fairy Tale Evolution:**

*Co-ed Combat* Kingsley Browne, 2007-11-08 A scholar makes a definitive controversial argument against women in combat More than 155 000 female troops have been deployed to Iraq and Afghanistan since 2002 And more than seventy of those women have died While that s a small fraction of all American casualties those deaths exceed the number of military women who died in Korea Vietnam and the Gulf War combined Clearly women in combat isn t a theoretical issue anymore Women now fly combat aircraft and serve on warships Even the remaining all male corners of the military are blurring the lines in Iraq And for many advocates this trend is considered progress toward a better gender neutral military *Co ed Combat* makes the opposite case based on research in anthropology biology history psychology sociology and law as well as military memoirs It asks hard questions that challenge the assumptions of feminists For instance Has warfare really changed so much as to reverse the almost unanimous history of all male armed forces Are men and women really equivalent in combat skills even leaving aside physical strength Do female troops respond to traditional types of motivations Can the bonds of unit cohesion form in a co ed military unit Can an all volunteer military afford to reject women This is a controversial book likely to draw a passionate response from both conservatives and liberals **Informatics Abstracts** ,1988
