

## REACTION PAPER IN PSYCHOLOGY

(SHIELA M. FAROL)

From this seminar, I learned that everyman has an instinct. The instinct to survive, to build and to be successful. I know where and when the life's starts. It all starts into the development of sperm cell and egg cell into the ovary. The first development of a baby is the heart and it follows by the brain. Once it is developed it is called people. I learned that we are all belongs to a family, once we developed into the ovary. From this seminar I know that we are born winners, unique and incomparable. The origin of our life is the meeting of sperm cell and egg cell.

I learned how to handle stress in our life. The stress is the human events in environment. People make the situation, the reason why we get stressed not stress make the whole situation. Knowingly the sources of our stress are the time, anticipatory, situational, and encounter. The signs of stress are the following: memory problems, inability to concentrate, moodiness, irritability or short-tempered, agitation, inability to relax, aches and pains, diarrhea or constipation, hair loss, eating more or less, sleeping too much or too little and nervous habits. Stresses lead to depression and depression is the second major illness.

I learned that we have to always think positive in life. We should accept the reality and adopt the situation. And in everything we do, think, love and put God first.
