

Chapter 1

Introduction

This is a sample of \LaTeX file about how to use the thesis template. To use the template of thesis, you need to download the files `LUthesis.sty`, `sample-thesis.tex`, `Abstract.tex` and `Acknowledgements.tex`.

This template uses a style file instead of a `.cls` file so that we can take the advantages of `report.cls` and make things simpler.

Any input and suggestions are welcomed. You may send an email for comments to

`ruizhong.wei@lakeheadu.ca`

To use this template, you need some basic knowledge about \LaTeX , which can be easily found by google search with the key word `LaTeX`.

1.1 Main idea

After you downloaded the files, you may type your thesis by editing the three `.tex` files. You may first read the `sample-thesis.tex` and try to understand the command lines in the file. You can do that by comparing the `sample-thesis.tex` and `sample-thesis.pdf` files.

Note that you should use a plain text editor to edit the `.tex` file. You also need a \LaTeX compiler in your computer. For windows user, you may use MikTeX as a compiler and LEd (Latex Editor) as an editor. These are free software. UNIX system usually has a latex compiler.
