SECTION A: COMPREHENSION

QUESTION 1

Read the following passage (Text A) and answer the questions that follow.

HAITI EARTHQUAKE: THOUSANDS FEARED KILLED

1. A major earthquake rocked Haiti, killing possibly thousands of people as it toppled the presidential palace and hillside shanties alike and left the Caribbean nation appealing for international help.
2. A five-storey UN building was also brought down by Tuesday's 7.0 magnitude quake, the most powerful to hit Haiti in more than 200 years according to the US Geological Survey. Reuters television footage from the capital, Port-au-Prince, showed scenes of chaos on the streets with people sobbing and appearing dazed amid the rubble.
3. The quake's epicentre was only 116 km from Port-au-Prince. About 4 million people live in the city and surrounding area. Aftershocks as powerful as 5.9 rattled the city throughout the night and into Wednesday.
4. Reports on casualties and damage were slow to emerge due to communication problems. UN officials said normal communications had been cut off and the only way to talk with people on the ground was via satellite phone. Roads were blocked by rubble. Brazilian General Carlos Barcellos said at least four Brazilian members of the UN peacekeeping mission in Haiti were killed. A large number of Brazilian soldiers were also missing.
5. A reporter in the hillside neighbourhood of Penonville reports that he saw no police or rescue vehicles. "People were trying to dig victims out with flashlights," he said. "I think hundreds of casualties would be a serious understatement." Witnesses said they saw homes and shanties built on hillsides tumble and cars bouncing off the ground as the earth shook.
