

Genetics Problem Solving

Please bring your textbook to this laboratory session.

A. Objectives

Become familiar with

1. Probability calculations
2. Solving genetics problems

B. Before lab

3. Read *Probability is used to predict inheritance and Mendel's laws can be observed in human pedigrees* on pages 150-151 of your textbook. Also, review linked genes and the construction of genetic maps on pages 156-158.
4. In your notebook, answer questions 1-3, 11, and 21 - 23 in part E below.

C. During lab

In groups of four, work through the genetics problems. You can fill your answers directly into the worksheet. However, remember to include this exercise in the table of content of your lab notebook, glue the pages in and have them signed by your instructor.

D. After lab

1. Finish the worksheet if you have not done it in lab.
2. Practice solving genetics problems (e.g., <http://www.ndsu.nodak.edu/instruct/mcclean/plsc431/mendel/mendel1.htm>)

E. Predicting the outcome of various crosses

1. A female carrier of Tay-Sachs wants to have a child with a male carrier for Tay-Sachs. Tay-Sachs is inherited in an autosomal recessive manner. Using the letters "T" and "t" fill out the following table.

	Female	Male
Genotype		
Phenotype		
Genotypes of sperm/ova		

2. Determine the probability of them having a child with Tay-Sachs using a Punnett square (page 147 in Hillis).

Enrichment Activity Genetics Problem Solving:

Resources in Education ,1987 *ENC Focus* ,2001 **Prentice Hall Science** Anthea Maton,Jill D. Wright,Jean Hopkins,Susan Johnson,David Lahart,Maryanna Quon Warner,1994 Becoming Literate in Mathematics and Science ,2001
Behavioural Biology Abstracts ,1992 **Current Index to Journals in Education** ,2001 **Teaching STEM in the Secondary School** Frank Banks,David Barlex,2020-12-29 This book looks at the purpose and pedagogy of STEM teaching and explores the ways in which STEM subjects can interact in the curriculum to enhance student understanding achievement and motivation By reaching outside their own classroom teachers can collaborate across STEM subjects to enrich learning and help students relate school science technology and maths to the wider world Packed with ideas and practical details for teachers of STEM subjects the new revised edition of this book considers what the STEM subjects contribute separately to the curriculum and how they relate to each other in the wider education of secondary school students describes and evaluates different curriculum models for STEM suggests ways in which a critical approach to the pedagogy of the classroom laboratory and workshop can support and encourage all pupils to engage fully in STEM addresses the practicalities of introducing organising and sustaining STEM related activities in the secondary school looks to ways schools can manage and sustain STEM approaches in the long term This new revised edition is essential reading for trainee and practising teachers those engaged in further professional development and all who wish to make the learning of science technology engineering and mathematics an interesting motivating and exciting experience for their students *Animal Behaviour Abstracts* ,1993
Exceptional Child Education Resources ,1992 *Animal Behavior Abstracts* ,1993 *Program Descriptions for Science Instructional Materials* ,1986 *Resources in Education* ,1997 **Resources for Teaching Thinking** Janice Kruse,1989 Presents 520 resources in a broad range of commercially available types of materials Each entry includes the title developer type of material purpose use thinking skills description publisher cost and order number and grade level Page vii
1994 Educational Opportunity Guide Daniel Trollinger,1994 **Genetics, Environment, and Intelligence** Alberto Oliverio,1977 *Annals of the Academy of Medicine, Singapore* Academy of Medicine (Singapore),2008
Inspiring Middle School Minds Judy Willis,2009 Teaching adolescents can be quite challenging Dr Judy Willis a neurologist and teacher explains the inner workings of the adolescent brain She uses the findings of brain research in her classroom to explain how parents and teachers can trigger untapped inspiration in students Middle school education has often been a black hole for gifted students seldom providing adequate challenge By understanding how the brain works however we can make learning for all youngsters exciting and stimulating The information and advice in this book will help parents and teachers design positive and rewarding learning experiences that will then be stored in long term memory rather than deleted or filtered out *Current Index to Journals in Education, Semi-Annual Cumulation, July-December, 1976* ,1976-10 *International Encyclopedia of Developmental and Instructional Psychology* Erik de Corte,Franz E. Weinert,1996

This Encyclopedia intends to provide a research based overview in an educational perspective of the present state of the art of our knowledge and understanding of the conditions processes and modifiabilities of human development and learning The Encyclopedia focuses on both developmental psychology and instructional psychology Over the past decade the boundaries between these two separate research domains have become increasingly obscure Indeed developmental psychologists have shown a growing interest in the impact of environmental factors on development this has led to the study of educational and instructional variables the pre dominantly environmental factors Meanwhile instructional psychology has become a major subdomain of research on human cognition and development A substantial contribution to the synergy between both domains derives from the robust research finding that developmental changes are very important conditions as well as consequences of the acquisition of knowledge and meta cognitive strategies The resulting changes have inspired the decision to combine both developmental and instructional psychology into one single volume The trend toward the integration of both domains notwithstanding the systematic discussion of their research findings requires a certain delimitation of the two fields The Encyclopedia is divided into 16 areas in order to reflect the specific nature as well as the integration of both domains In the first section which is most representative of the integrative tendency a general framework of research on human development learning and instruction is outlined The next six chapters are concerned with the various aspects of human development and learning The remaining nine sections represent an overview of the research findings on learning and instruction which are relevant to education Articles include updated and revised material from the International Encyclopedia of Education 2nd Edition described by Choice as being a premier resource when judged on virtually every criteria applied to a reference work The Encyclopedia provides an informative introduction to aspects of developmental psychology and instructional psychology that significantly influence education *Curriculum Development Library* ,1980

Reviewing **Enrichment Activity Genetics Problem Solving**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
