

## Economic Planets

### Remember College your answer on this test

#### Biological and Behavioral

Consider the following and determine every day activities under the general umbrella:

**Question 1:** What are the four stages of the biological-behavioral model of activity? What are the two that are defined by the economic plan? The biological level has three levels: (1) the physical level of the eye and vision; (2) the neural level representing the eye's sensory and the target visual response; (3) the person's reaction as these efforts occur, based on cognitive content of these. In the context provided, label the processes on the eye's side (1) the target corresponding to the defined processes of the biological-behavioral model. Label activity as positive or negative based on the eye's sensory and response characteristics (biological-behavioral).

**Question 2:** Label the processes on the person's side with the labels corresponding to the defined processes of the biological-behavioral model. Also, label activity as positive or negative based on the person's characteristics.

the eye's two and three of the person's processes, determine activity and label activity as positive or negative based on the person's characteristics (behavioral-behavioral).
