Locating Social Justice in Higher Education Research Jan McArthur, Paul Ashwin, 2020-03-19 This book focuses on the relations between social justice and higher education research Jan McArthur and Paul Ashwin bring together chapters from international researchers that explore these relations in a range of national contexts and consider their implications for policies pedagogy and our understanding of the roles of graduates in societies As a whole the book argues that social justice needs to be more than a topic of higher education research and must also be part of the way that research is undertaken Social justice must be located in research practices as well as in the issues that are researched *Nationalism, Politics and Anthropology* Ilana van Wyk, Jimmy Pieterse, 2022-02-28 In this book Ilana van Wyk and Jimmy Pieterse interrogate the question of political subjectivity and its role in the making of anthropology and anthropologists by revisiting the pitched battles between so called liberal social anthropologists and conservative nationalist volkekundiges in South Africa They pay particular attention to the social and cultural lives of two men who were central proponents of South African anthropology s two tales Kees van der Waal a former volkekundige and John Sharp once one of volkekunde s fiercest critics Through a series of conversations with Kees and John they show that the issues that once divided a local field still animate the ways in which centres and peripheries of global anthropology relate to one another and to foundational questions about the discipline s epistemology and political positionality *Faith, Race and Inequality amongst Young Adults in South Africa* Nadine Bowers Du Toit, 2022-07-04 For many young South African adults often called born frees who were born just before or just after the demise of political apartheid the ongoing realities of poverty and inequality bring to light the question of whether they truly are free in contemporary South Africa Their lived experiences of poverty and inequality seem to be in conflict with theologically laden concepts that remain prominent in social and political life such as reconciliation forgiveness justice and restitution This leads to a bi directional process of contesting and being contested by such notions and discourses Furthermore in light of the double legacy of both the church and youth as resisting injustice this publication seeks to explore the many perspectives from which the Christian faith race and inequality amongst youth can be brought to light **Open Access Implications for Sustainable Social, Political, and Economic Development** Jain, Priti, Mnjama, Nathan, Oladokun, O., 2020-09-18 Open access publishing can be used as a strategic tool to avail access to information and achieve universal literacy Open access has gained importance over the past 15 years by making knowledge available to all without any barrier of affordability or restrictions on using this knowledge to inform and develop Open access contributes to scientific research excellence disseminates research results to a wider community and promotes multi disciplinary and collaborative research Issues of sustainable development and open access are major concerns in librarianship and information management particularly as the international library and information management community is focusing on how to contribute to the Sustainable Development Goals Open Access Implications for Sustainable Social Political and Economic
