Transforming Parish Communications Scot Landry, 2014-08-15 Are we still a Church capable of warming hearts A Church capable of leading people back to Jerusalem Of bringing them home Pope Francis Meeting with the Bishops of Brazil 28 July 2013 Pope Francis like his predecessors Benedict XVI and John Paul II is calling for Catholics to embrace the new evangelization But there has been ongoing confusion about who is responsible what it really means and what it looks like in practical application How can we respond to the Holy Father s call creating evangelization opportunities that help bring people back to the Church By transforming Catholics into digital missionaries ready and able to take the joy and warmth of the Gospel online via social media to infrequent inactive or ex Catholics around the corner or across the globe Consider this 1 Nearly every lost Catholic in the U S is most likely connected with at least one engaged Catholic or is one retweet or like away from them 2 On the whole Catholics have not been taught to see social media as a way to live out their faith 3 Motivating parishes to put a priority on evangelization has been a challenge 4 Catholics are more likely to be comfortable as digital missionaries than to participate in other forms of evangelization 5 Parishes can offer digital missionary training to parishioners who would welcome it In Transforming Parish Communications Growing the Church Through New Media you ll discover How to embrace the Church s vision of evangelization in new media How entire parishes can become hubs of digital evangelization and how to overcome obstacles Specific strategies for implementation How to create a consistent digital identity online Best practices for parish websites The nuts and bolts of Facebook Twitter email blogging and more Consider this book your entry into an important and urgent call to each of us as Catholics To bring the warmth of the Gospel to the lost and bring them back to the Church Visit the companion site for more ParishGuideToNewMedia.com

Update Culture and the Afterlife of Digital Writing John R Gallagher, 2020-02-03 Update Culture and the Afterlife of Digital Writing explores neglected circulatory writing processes to better understand why and how digital writers compose revise and deliver arguments that undergo sometimes constant revision John R Gallagher also looks at how digital writers respond to comments develop a brand and evolve their arguments all post publication With the advent of easy to use websites ordinary people have become internet writers disseminating their texts to large audiences Social media sites enable writers audiences to communicate back to the them instantly and often Even professional writers work within interfaces that place comments adjacent to their text privileging the audience s voice Thus writers face the prospect of attending to their writing after they deliver their initial arguments Update Culture and the Afterlife of Digital Writing describes the conditions that encourage published texts to be revisited It demonstrates through forty case studies of Amazon reviewers redditors and established journalists how writers consider the timing attention and management of their writing under these ever evolving conditions Online culture from social media to blog posts requires a responsiveness to readers that is rarely duplicated in print and requires writers to consistently reread edit and update texts a process often invisible to readers This book takes questions of

circulation online and shows via interviews with both writers and participatory audience members that writing studies must contend with writing's afterlife. It will be of interest to researchers, scholars, and students of writing studies and the fields of rhetoric, communication, education, technical communication, digital writing, and social media, as well as all content creators interested in learning how to create more effective posts, comments, replies, and reviews. *Searcher*, 2008-11
