

How to write an Extended Response

1. **Actively read the question before you do anything else!**
 - Underline the subject of the essay and **mark it with an S**
 - Underline the topics of your body paragraphs and **mark them with a T.S.**
 - In the **Bullets** sections, find and mark your points by underlining the key words and putting a **^** near each point.
2. **Outline your body paragraphs on the planning page.** You will have either 2 or 3 body paragraphs and you could have either 2 or 3 points in each. Since you just actively read your question, you should know exactly what you need to outline.
 - Remember, the extended response is "scaffolded." That means that the details in your graphic organizer and short responses are the details that you build on/use in your essay.
 - Be **VERY SPECIFIC!** GO BACK to your **NOTES** or the **TEXTS** to get specific details! Don't trust your memory.
 - Keep your outline short! Only use 1-4 words per line. Remember, the outline is to guide you in writing your essay. It isn't the essay itself.
 - Spend no more than 10 minutes actively reading the question and outlining.
3. **Write your introduction paragraph.** Every introduction paragraph has at least four sentences. Think of an introduction as being shaped like an upside down triangle. You start general (wide) and narrow to your point.
 - 1st sentence = **GENERAL OPENING STATEMENT** (also called the warm up or the motivator). This is where you introduce the **SUBJECT** of your essay. This should be found in the question, and you should have marked it during active reading.

ALL

 - 2nd sentence = **NARROWED STATEMENT** this is where you begin to limit your subject so that you can introduce more specific topics.

SOME

 - 3rd sentence = **ROADMAP**. This is where you explain what the topics of your body paragraphs will be. If you have 2 body paragraphs, then you must introduce 2 topics in your roadmap sentence. If you have 3 body paragraphs, then you must introduce 3 topics in your roadmap sentence. Etc.

THESE 2 or 3

 - 4th sentence = **THESIS STATEMENT** (also called the **CONTROLLING IDEA**) This is where you express your opinion that you are going to be writing about. However, **NEVER USE 1ST PERSON!** State your opinion as if it was fact.

OPINION STATED AS FACT

Extended Response Essay Example Third Grade:

An Educational Psychology Textbook Equity, 2014-10-10 The first half of the book focuses on broader questions and principles taken from psychology per se and the second half focuses on somewhat more practical issues of teaching All parts of the book draw on research theory and practical wisdom wherever appropriate Chapter 2 is about learning theory and Chapter 3 is about development Chapter 4 is about several forms of student diversity and Chapter 5 is about students with disabilities Chapter 6 is about motivation Following these somewhat more basic psychological chapters we turn to several lasting challenges of classroom life challenges that seem to be an intrinsic part of the job Chapter 7 offers ideas about classroom management Chapter 8 ideas about communicating with students Chapter 9 about ways to assist students complex forms of thinking and Chapter 10 about planning instruction systematically The book closes with two chapters about assessment of learning

Classroom Assessment Lorin W. Anderson, 2003-02-26 This book is based on the belief that decision making is perhaps the most critical of all teaching skills and that good assessments lie at the core of good decision making To become better teachers then teachers must learn to make informed decisions about both individual students learning decisions and about groups of students teaching decisions This book gives equal status to both types of decisions and shows how assessment is integral to both The organization of the book is sequential mirroring the way in which information should be used to make decisions It begins with a conceptual framework linking information to decision making then moves to the design of assessment instruments and the collection of assessment information then to the interpretation of assessment information and finally to reporting the results of both the assessment and the decision making process There is an emphasis throughout on linking why teachers assess with what and how they assess Other key features include Practical Framework The book s framework corresponds to the framework that teachers use to grade their students conduct classroom behavior effort student motivation and achievement student learning Unique Chapters There are separate chapters on interpreting assessment information prior to decision making and on reporting assessment information to parents teachers and administrators Flexibility Because of its modest length and price and its practical focus on the links between assessment and everyday teacher decision making this text can be used either in full length assessment courses for teachers or to teach the assessment units in educational psychology or integrated methods courses

5 fans and blowers saylor academy - Mar 26 2023

web radial fans are industrial workhorses because of their high static pressures upto 1400 mm wc and ability to handle
heavily contaminated airstreams because of their simple design radial fans are well suited for high temperatures and medium
blade tip speeds forward curved fans are used in clean environments and operate at lower temperatures

fan handbook selection application and design google books - Nov 21 2022

web with hundreds of graphs equation drawings charts and tables this practical handbook explains fan technology and the
basics of fluid mechanics and provide all the information you need on codes standards and specifications relating to the
design or selection of specialized fans testing of fans according to amca physical laws affecting

chapter 10 fans - Oct 21 2022

web in this chapter we shall define fan pressures and examine some of the basic theory of fan design the results of combining fans in series and parallel configurations the theory of fan testing and booster fan installations 10 2 fan pressures a matter that has often led to confusion is the way in which fan pressures are defined in section

design of 5 kw radial type centrifugal blower impeller ire - Aug 19 2022

web in this research paper is attempted to design a single stage radial type centrifugal blower for used in required industrial area in this thesis the bower is designed to provide low volume high pressure air for cooling ventilating and exhaust system that handle dust materials or corrosive fumes

effect of blade number on the performance of centrifugal fan - Feb 10 2022

web jan 1 2023 simulation of centrifugal fan is demonstrated by considering a preliminary design model of backward curved bladed impeller centrifugal having 11 blades md1 which is designed using theoretical concepts from fan handbooks to achieve an air capacity of 7 m³ s producing a total pressure at outlet of fan to be 2000 pa while impeller running at
