aren't just for kids anymore. This book will describe the why and how to start or expand a video gaming program in the library including some specific examples of how to target adult and female gamer patrons. Gaming supplies more than just visual stimulation and empty entertainment; it can also promote socialization as well as the learning of both traditional and new literacies required to succeed in the modern world. Problem solving, multi-tasking, complex decision making on the fly, and reading the combination of words and graphics are vital skills for the 21st century, all of which are required to play video games. *Crash Course in Gaming* discusses the pros and cons of gaming, the types of games and game systems, circulating collections, and game programs. It explains how a library's video game program can and should do much more than simply draw younger users to the library, providing examples of how everyone from parents to senior citizens can benefit from a patron-oriented computer gaming program. The appendices also include specific games programs, review sources, and sources for further information.

Ctrl-Alt-Play Matthew Wysocki, 2013-02-07. The word control has many implications for video games. On a basic level, without player control, there is no experience. Much of the video game industry focuses on questions of control and ways to improve play to make the gamer feel more connected to the virtual world. The sixteen essays in this collection offer critical examinations of the issue of control in video games, including different ways to theorize and define control within video gaming and how control impacts game design and game play. Close readings of specific games, including *Grand Theft Auto IV*, *Call of Duty: Black Ops*, and *Dragon Age: Origins*, consider how each locates elements of control in their structures. As video games increasingly become a major force in the media landscape, this important contribution to the field of game studies provides a valuable framework for understanding their growing impact.
