

The report lists Andrew's traits and corresponding scores in descending order for each trait category. The trait definitions are to the right of each trait. If a position was selected when running this report, the traits related to the position will be highlighted in **green** for Essential Traits, **blue** for Desirable Traits, and **red** for Traits to Avoid that could hinder Andrew's performance.

The suitability assessment includes a technological 'consistency detector' that indicates the reliability of results by analyzing the consistency of the answers on the questionnaire. Andrew's consistency score is 96 which indicates that Andrew is 99% consistent in answering the questionnaire. This indicates a high likelihood that Andrew was truthful, accurately self-aware, and able to concentrate on the questionnaire.

A single asterisk, *, indicates that there are some inconsistencies related to this trait, but the result is probably reliable. A double asterisks, **, indicates that there are some inconsistencies related to this trait, and the result is probably questionable.
