Active Learning: Theoretical Perspectives, Empirical Studies and Design Profiles Robert Cassidy, Elizabeth S. Charles, James D. Slotta, Nathaniel Lasry, 2019-07-11 This book represents the emerging efforts of a growing international network of researchers and practitioners to promote the development and uptake of evidence based pedagogies in higher education at something a level approaching large scale impact By offering a communication venue that attracts and enhances much needed partnerships among practitioners and researchers in pedagogical innovation we aim to change the conversation and focus on how we work and learn together i e extending the implementation and knowledge of co

design methods In this first edition of our Research Topic on Active Learning we highlight two of the three types of publications we wish to promote First are studies aimed at understanding the pedagogical designs developed by practitioners in their own practices by bringing to bear the theoretical lenses developed and tested in the education research community These types of studies constitute the practice pull that we see as a necessary counterbalance to knowledge push in a more productive pedagogical innovation ecosystem based on research practitioner partnerships Second are studies empirically examining the implementations of evidence based designs in naturalistic settings and under naturalistic conditions Interestingly the teams conducting these studies are already exemplars of partnerships between researchers and practitioners who are uniquely positioned as in between straddling the two worlds As a result these publications represent both the rigours of research and the pragmatism of reflective practice In forthcoming editions we will add to this collection a third type of publication design profiles These will present practitioner developed pedagogical designs at varying levels of abstraction to be held to scrutiny amongst practitioners instructional designers and researchers alike We hope by bringing these types of studies together in an open access format that we may contribute to the development of new forms of practitioner researcher interactions that promote co design in pedagogical innovation

The Legacy of Felix Klein

Hans-Georg Weigand, William McCallum, Marta Menghini, Michael Neubrand, Gert Schubring, 2018-12-11 This open access book provides an overview of Felix Klein's ideas highlighting developments in university teaching and school mathematics related to Klein's thoughts stemming from the last century It discusses the meaning importance and the legacy of Klein's ideas today and in the future within an international global context Presenting extended versions of the talks at the Thematic Afternoon at ICME 13 the book shows that many of Klein's ideas can be reinterpreted in the context of the current situation and offers tips and advice for dealing with current problems in teacher education and teaching mathematics in secondary schools It proves that old ideas are timeless but that it takes competent committed and assertive individuals to bring these ideas to life Throughout his professional life Felix Klein emphasised the importance of reflecting upon mathematics teaching and learning from both a mathematical and a psychological or educational point of view He also strongly promoted the modernisation of mathematics in the classroom and developed ideas on university lectures for student teachers which he later consolidated at the beginning of the last century in the three books on elementary mathematics from a higher standpoint

Handbook of Research on Gaming Trends in P-12 Education

Russell, Donna, Laffey, James M., 2015-10-21 Gaming applications are rapidly expanding into the realm of education Game based education creates an active and enjoyable learning environment especially for children and young adults who regularly use gaming for recreational purposes Due to the evolving nature of education gaming provides a transformative learning experience for diverse students The Handbook of Research on Gaming Trends in P 12 Education provides current research intended to aid educators school administrators and game developers in teaching today's youth in a technology immersive society This
