**August's Consultations in Feline Internal Medicine, Volume 7** Susan E. Little, 2015-12-14 Stay current with cutting edge information from the leading feline experts August's Consultations in Feline Internal Medicine Volume 7 takes the popular Current Therapy approach to the latest issues, advances and therapies in feline care. The 103 new chapters are organized by body systems, making information easy to access and include more than 800 new detailed photographs, diagrams and MRI and ultrasound images. Discussions of scientific findings always emphasize clinical relevance and practical application. This edition addresses new topics ranging from feline obesity and food allergies to respiratory mycoplasma infections. From feline expert Susan Little with chapters written by more than 130 international specialists, this practical resource will be an invaluable addition to every small animal clinician's library. The Current Therapy format focuses on the latest advances in feline care and includes broad traditional and controversial subjects of real clinical importance. Clinically relevant approach is supported with scientific research and promotes practical, progressive clinical management. More than 130 world-renowned contributors provide expert insight across the full spectrum of feline internal medicine. Extensive references make it easy to find additional information about specific topics most important to your practice. 103 ALL NEW chapters reflect the latest findings, reports and evidence-based coverage of pressing topics such as: Managing respiratory mycoplasma infections, Continuous glucose monitoring in cats with diabetes, Feline food allergy, Stem cell therapy for chronic kidney disease, Feline idiopathic cystitis, Electrochemotherapy, Current concepts in preventing and managing obesity, Recognition and treatment of hypertensive crises, Feline social behavior and personality. NEW Emergency and Critical Care Medicine section contains 13 chapters covering complicated and serious internal medical problems. NEW More than 800 colorful new images clarify concepts and demonstrate clinical examples. [Ships and Offshore Structures XIX](#) Carlos Guedes Soares, Y. Garbatov, 2015-09-03 This three-volume work presents the proceedings from the 19th International Ship and Offshore Structures Congress held in Cascais, Portugal, on 7th to 10th September 2015. The International Ship and Offshore Structures Congress (ISSC) is a forum for the exchange of information by experts undertaking and applying marine structural research. The aim of **Intercultural Dramatherapy** Ditty Dokter, Nisha Sajani, 2022-12-29 The first overarching work on dramatherapy, intercultural practice and research, this book explores the therapeutic encounter between therapists and participants as an intercultural space, highlighting how attending to cultural differences informs care. Drawing on international voices of practitioners and participants, each chapter seeks to explore how social and political struggles such as rising global conservatism, nationalism, climate crisis, increasing displacement and the coronavirus pandemic are experienced in dramatherapy. Main themes covered include the development of intercultural good practice guidelines, therapist transparency, especially through self-disclosure and transference issues for the therapist, and the negotiation of power relationships across identity differences. The book concludes with a section on recommendations for training, supervision and

practice A resource from which new practice and research can emerge this book will be valuable to dramatherapy educators practitioners and students specifically those interested in intercultural practice

**Artificial Whiteness** Yarden Katz, 2020-11-17 Dramatic statements about the promise and peril of artificial intelligence for humanity abound as an industry of experts claims that AI is poised to reshape nearly every sphere of life Who profits from the idea that

the age of AI has arrived Why do ideas of AI s transformative potential keep reappearing in social and political discourse and how are they linked to broader political agendas Yarden Katz reveals the ideology embedded in the concept of artificial intelligence contending that it both serves and mimics the logic of white supremacy He demonstrates that understandings of AI as a field and a technology have shifted dramatically over time based on the needs of its funders and the professional class that formed around it From its origins in the Cold War military industrial complex through its present day Silicon Valley proselytizers and eager policy analysts AI has never been simply a technical project enabled by larger data and better computing Drawing on intimate familiarity with the field and its practices Katz instead asks us to see how AI reinforces models of knowledge that assume white male superiority and an imperialist worldview Only by seeing the connection between artificial intelligence and whiteness can we prioritize alternatives to the conception of AI as an all encompassing technological force Bringing together theories of whiteness and race in the humanities and social sciences with a deep understanding of the history and practice of science and computing *Artificial Whiteness* is an incisive urgent critique of the uses of AI as a political tool to uphold social hierarchies [Handbook of Religion and Society](#) David Yamane,2016-07-15 The *Handbook of Religion and Society* is the most comprehensive and up to date treatment of a vital force in the world today It is an indispensable resource for scholars students policy makers and other professionals seeking to understand the role of religion in society This includes both the social forces that shape religion and the social consequences of religion This handbook captures the breadth and depth of contemporary work in the field and shows readers important future directions for scholarship Among the emerging topics covered in the handbook are biological functioning organizational innovation digital religion spirituality atheism and transnationalism The relationship of religion to other significant social institutions like work and entrepreneurship science and sport is also analyzed Specific attention is paid where appropriate to international issues as well as to race class sexuality and gender differences This handbook includes 27 chapters by a distinguished diverse and international collection of experts organized into 6 major sections religion and social institutions religious organization family life course and individual change difference and inequality political and legal processes and globalization and transnationalism *Forthcoming Books* Rose Army,1997 [General Catalogue of Printed Books to 1955](#) British Museum.
