more sugar without being noticed Similarly a very long list of ingredients is unnecessary and is more deceitful than anything else So if you are careful and read nutrition labels and ingredients lists it is possible that you will discover that actually you are not consuming what you think you do The best in this case is to make your own homemade protein bars For the purpose to avoid all confusions with ingredients and trust you are really following your protein diet get this [DIY Protein Bar Cookbook](#) and start having fun with your training sessions without fear of not having the right balance of protein
