plates Many of these pesticides are the modern day equivalent of DDT However scant research exists on the chemical soup of poisons that our children consume on a daily basis As our food supply environment reels under the pressures of industrialization via agrochemicals our kids have become the walking evidence of this failed experiment What s Making Our Children Sick exposes our current predicament and offers insight on the medical responses that are available both to heal our kids and to reverse the compromised health of our food supply Perro and Adams book is an alarming eye opening read that documents more clearly than ever the devastating consequences that pervasive pesticide use in food production is having on our health and the urgent need to protect our children from a system that prefers we treat illness and disease with pills rather than prevention Carey Gillam journalist author of Whitewash *Te HS&T J* Holt Rinehart & Winston,Holt, Rinehart and Winston Staff,2004-02 *Ate Science Plus 2002 LV Red* Holt Rinehart & Winston,2001-02 Holt Environmental Science Holt Rinehart and Winston,2008-01-01 Gaining Ground International Fund for Animal Welfare,2006 **Biology** Holt Rinehart & Winston,Holt, Rinehart and Winston Staff,2004
