Topics range from understanding adolescent informational needs and building and promoting a winning collection to creating programs with tween appeal. Contributors include Sheila B Anderson, James Rosinia, Deb Taylor, Robyn Lupa, and Kristine Mahood. Brimming with valuable insights and fresh ideas as well as nuts and bolts directions, this is a must read for all librarians who work with young adolescents. If someone is described as a young adult, what image comes to mind? In fact, a young adult can be a twelve year old middle schooler or a high school graduate. Libraries have traditionally offered a variety of programs and services for YAs and although more emphasis has been given to serving teens in recent years, little has been done to distinguish between groups within the category and meet the specific developmental needs of this broad range of library users. This collection complements Anderson's previous collection, *Serving Older Teens*, by focusing on the needs of tweens and young teens, ages 11-14. This is the age range when many young people stop using the library and lose interest in reading. Notable teen experts and stellar practitioners from across the country explain why service to adolescents in this age range is so important and how you can enhance your collection and services to accommodate and win over this important group. Topics range from understanding adolescent informational needs and building and promoting a winning collection to creating programs with tween appeal. Teaching Reading Strategies with Literature That Matters to Middle Schoolers, Nancy Fordham, Alexa L. Sandmann, 2006. Help students learn and apply key reading strategies while exploring different themes commonly taught in middle school, such as Forging One's Identity, Friendship, Making choices, and the Pioneering Spirit. p. 4 of cover. *Are They Really Reading?* Jodi Crum Marshall, 2002. All too often, the poorest readers learn that if they keep quiet during sustained silent reading (SSR), they're doing okay. No reading required. This is especially true in middle school where class sizes are large and instructional emphasis is on content rather than reading. In *Are They Really Reading?*, Jodi Crum Marshall discusses how to find out if your students are using SSR time wisely and what to do about it if they're not. Her book describes how to support middle grade readers who need it the most while embracing a research-proven need to increase independent self-selected reading time for students. Jodi shares lessons and anecdotes from her classroom and from her experience as a reading specialist implementing her model schoolwide. She expands the traditional concepts of SSR to include read alouds, writing, and accountability to scaffold struggling middle grade students. Bolstered by these additional supports, Jodi's students

dramatically increased their interest and ability in reading through a program they named Supporting Student Literacy SSL Classroom teachers will appreciate the clear direction on how and why to implement an SSR program Administrators will appreciate the guidance for establishing a schoolwide literacy block that substantially improves student motivation and learning Are They Really Reading answers the following important questions Why should I start an SSR program How do I build a classroom library Where do I get funding for books and other materials How do I prepare the students for SSR How do I motivate students to read What is the role of the teacher How do I assess SSR If you don't currently use a sustained silent reading program this book will help you get started on the right track If you worry that some of your students aren't really reading during SSR or if you want to enhance your program here is a roadmap that is instructionally sound and flexible enough to fit your students needs
