Transforming Public Space through Play Gregor Mews, 2022-04-21 This book provides an empirical analysis of the concept of play as a form of spatial practice in urban public spaces The introduced City Play Framework CPF is a practical urban analysis tool that allows urban designers landscape architects and researchers to

develop a shared awareness when opening up this window of possibility for adventure Two case studies substantiate and illustrate the development process and testing of the framework in Canberra Australia and Potsdam Germany The appropriation of public spaces that transcend boundaries can facilitate an intrinsic connection between people and their immediate environment towards a more joyful ontological state of human existence in which imagination co creation and a sense of agency are key elements of the design approach The framework presents an alternative understanding of public spaces and public life reflecting on theory and its implications for practice in a post pandemic world in dense urban centres A bridge between theory and practice this book explores possibilities on what future design ought to be when openness and ambiguity are consciously integrated parts of practice and process The book presents a valuable discussion on public space and play for academic audiences across a wide range of disciplines such as landscape architecture urban design planning architecture and urban sociology which is informative for future practice

*The English Buildings Book* Philip Wilkinson, Peter Ashley, 2006 This is the most comprehensive single volume on English architecture for the general reader It is a visual cornucopia and a tribute to the diversity of the English built environment which is among the richest and most diverse in the world Over 700 buildings are described and illustrated and they range from the architectural icons to the less noticeable but equally fascinating buildings of England s towns and villages

**Rome Resurgent** Peter Heather, 2018-05-01 Between the fall of the western Roman Empire in the fifth century and the collapse of the east in the face of the Arab invasions in the seventh the remarkable era of the Emperor Justinian 527 568 dominated the Mediterranean region Famous for his conquests in Italy and North Africa and for the creation of spectacular monuments such as the Hagia Sophia his reign was also marked by global religious conflict within the Christian world and an outbreak of plague that some have compared to the Black Death For many historians Justinian is far more than an anomaly of Byzantine ambition between the eras of Attila and Muhammad he is the causal link that binds together the two moments of Roman imperial collapse Determined to reverse the losses Rome suffered in the fifth century Justinian unleashed an aggressive campaign in the face of tremendous adversity not least the plague This book offers a fundamentally new interpretation of his conquest policy and its overall strategic effect which has often been seen as imperial overreach making the regime vulnerable to the Islamic takeover of its richest territories in the seventh century and thus transforming the great Roman Empire of Late Antiquity into its pale shadow of the Middle Ages In *Rome Resurgent* historian Peter Heather draws heavily upon contemporary sources including the writings of Procopius the principal historian of the time while also recasting that author s narrative by bringing together new perspectives based on a wide array of additional source material A huge body of archaeological evidence has become available for the sixth century providing entirely new means of understanding the overall effects of Justinian s war policies Building on his own distinguished work on the Vandals Goths and Persians Heather also gives much fuller coverage to Rome s enemies than Procopius ever did A briskly paced narrative by a master historian *Rome Resurgent* promises to introduce

readers to this captivating and unjustly overlooked chapter in ancient warfare      **The Cumulative Book Index** ,1997 A
