comprehension Some direct their attention to oral discourse while others focus on written texts To preserve overall coherence however the contributors were given the following recommendations With regard to the level of linguistic analysis the emphasis should be on the clause level more particularly on the relationships between clauses Special emphasis should also be placed on linguistic markers e g connectives markers of segmentation punctuation An overview of a given field of research should be offered and current research should be put into perspective For contributors in the developmental field attention should be paid to the fact that an account of the acquisition of some language functions throughout childhood should be included only if general principles of interclause relations that might be masked by the exclusive examination of adult evidence could be derived from it
