Exam Info

Psychology Exam Date: May 19th, 11am PST

2 FRQs: 25 mins for Q1 (concept application), 15 mins for Q2 (research methods)

Eligible Units: 1-7

Writing FRQs

*Carefully read the prompt prior to answering. Answer the questions you are most comfortable with first, to maximize your time and maximize your score.

* The question may not be clear so make sure you interpret the question correctly

*Underline key words and phrases that specifically identify what the task is

*Prewrite key definitions, examples, and people to use in the answer

*Be specific, direct, and concise; to the point. Avoid contradictions

Use SODAS:

- **Space It:** Leave enough space between each task for you to go back and add to it.
- **Order:** Answer the tasks in the same order as listen in the question
- **Define:** Briefly explain each concept using specific terminology that indicates an understanding of the topic. VERY IMPORTANT.
- **Apply:** Relate terms in the question to the scenario or connect the terms as directed in the question, paying attention to specific instructions. VERY IMPORTANT.
- **Synonyms:** Do not use the term in the definition or application

Sentence Frame:

- **Psychology Term** is **definition**. In this case/study/experiment, show how it applies
- **Ex: Attachment** is an emotional tie with another person. In Harry and Margaret Harlow's experiment, they bred monkeys which eventually sought out comfort more than food, which demonstrates that the effects of attachments are seen in other species as well.

Test Day Tips

- Have all of your notes prepared and ready, but don't spend too much time looking for information. It's better to know the info and use the time to demonstrate your knowledge.
- Keep an eye on the clock, and make sure you leave enough time to answer every question
- Check your work with any remaining time.
- Stay calm and get in the zone; you've prepped all year for this and the only thing you can do at this point is try your best.
