

READING COMPREHENSION GUIDE MYTHS AND LEGENDS No. 2

NAME: COURSE:

- Objective: Read comprehensively and analyze myths and legends.
- Teacher: Claudia González

Myth and legend are stories that are spread orally, from one generation to another. They are narratives that are born spontaneously as a collective expression of a race or people, due to a need to create an image of the world and to express a faith. Supernatural beings and events participate in them. Their origin cannot be established with precision and although both are oral stories that are transmitted from parents to children, they are not the same.

Myths are wonderful narratives located outside historical time and starring characters of a divine or heroic character. Because human beings need to answer questions about their origin, their destiny, their present... the mythological answer was the first to appear. Farmers who need rain, sailors who want to dominate the sea, warriors who want to win battles, peasants afraid of storms. All of them found answers in myths: rain was generated by a god, the rough sea was the anger of Poseidon, Ares supported the armies that pleased him most, Zeus launched lightning from storms, etc.

The legend belongs to folklore and therefore corresponds to the most deeply rooted wisdom of a people. It is a spoken story that is preserved in its oral tradition. It indicates places precisely and has historical antecedents in its origin. For this reason, their characters are identifiable, although never the same as the character or event on which they are based. Legends are stories that try to explain facts that would have occurred in remote times, such as the origin of the name of a place or a custom, and that popular fantasy has been modifying.
