

## **The President, the Cabinet, and EOC Paper Example Essay**

### **Role of the cabinet**

Cabinet plays an integral role in the governance process in the country. Such aspects include the operational policies in internal affairs such as education. Each member of the cabinet has a unique role to play by offering expertise in a specific field. In general, the cabinet plays a vital role in the day-to-day running of the government.

An example of the policy role of the cabinet suffices. The cabinet has fourteen secretaries with different dockets. The secretary of state, for instance, lays the policy framework for the nation's foreign policy. Lady Condoleeza Rice was one-time secretary of state during the tenure of President Bush. She established the context of the nation's foreign policy. Her approaches led to the US's adoption of different international treaties such as the Strategic Offensive Reductions Treaty (SORT).

The cabinet has an essential role in succeeding the president. In case the president is impeached or otherwise incapable of serving, the vice president follows in the rank of priority. He is a member of the cabinet. The secretary of state follows who is still a member of the cabinet. In such cases, the cabinet plays a pivotal role in the successional leadership of the country.

### **The executive office of the President**

President Roosevelt formed the Executive Office of the President (EOP) in 1939. The EOP had the mandate of conveying his agenda to the public. At the same time, the body had the mandate of promoting the nation's trade interests at the international level. There is a high level of presidential discretion while appointing persons to serve in the EOP. Such an approach provides the president with an opportunity to nominate persons whom he is pleased to work within the office.

The Press Secretary's Office (PSO) serves under the EOP office. The secretary has obligations such as handling day-to-day news brief on the status and activities of the president. The EOP acts as a communication office on behalf of the presidency. It offers pronouncements of the president on important matters of national importance.

It is unknown to many that the EOP handles external matters related to the presidency. The national Security Council is part of the EOP. The council advises the sitting president on aspects such as foreign affairs, intelligence, and national security. Such roles include options that are available to the president and potential repercussions at any stage.

At the same time, the EOP handles day-to-day personal aspects within the presidency. Such logistical support includes elements such as planning the presidential security aspects. Other roles of different members of the EOP include the preparation of sites in cases where the president is moving out of the norms of work. Such practicalities indicate that the president is closer to the EOP than to the cabinet as discussed below
