TWIN PEAKS, legendary brainchild of David Lynch and Mark Frost, famously suffered a dip in quality for a portion of season two. This was due to a number of factors, including:

- ABC execs forcing a severely premature resolution to a central mystery.
- Lynch becoming increasingly hands-off once said mystery was resolved.
- Lynch and Frost being engaged in other projects.
- A season two order for almost 3 times the episodes as season one.
- Kyle MacLachlan refusing a long-planned romance between Cooper and another character, apparently due to pressure from then-girlfriend Lara Flynn Boyle.

Remember, all episodes contain worthwhile parts, and every episode contains clues to the Twin Peaks mythos. Skipping episodes is unwise.

While the opinion about the season two dip is generally agreed upon by fans, crew, writers, actors, and creators, viewing remains a subjective experience, and individual mileage may vary.

Note:

At times the pilot is simply called "pilot," while the second installment is counted as episode 1. Further, sometimes the last episode of season two is counted as episode 8 or episode 9, proceeding numerically until the series finale is numbered episode 29 or 30, depending on the numbering method employed.

Text Version:

The entire 1st season, and the first nine of the 2nd season are classic. The worst stretch is s2 10-16, with 11 and 15 singled out as poorest. 17-21 are decent, and 22 is considered classic.
