

Chapter 15

"What is Freedom?"

Reconstruction Era, 1865-1877

The Meaning of Freedom

- During the Reconstruction era, the subject of freedom became open to contradictory interpretations and conflict
- African Americans' understanding of freedom was influenced by their experiences in slavery and their observations of the free society around them
- For them, freedom meant escaping the injustices of slavery- punishments, separating families, denial of access to education, the sexual exploitation of black women from their masters

Families in Freedom

- Black families, schools, churches were expanded and strengthened when slavery ended
- The family was central to the postemancipation black community
- Former slaves made efforts to locate family members who they had been separated from under slavery
- Freedom subtly altered relationships within the family
- Many black women preferred to devote more time to their families and men considered it an honor to see their wives remain at home
- Eventually, dire poverty in the black community would compel a higher proportion of black women than white women working for wages

Church and School

- Blacks abandoned white-controlled religious institutions to create churches of their own
- The church played a central role in the black community
- They served as a place of worship and housed schools, social events, and political gatherings
- Black ministers played an important role in politics as 250 held public office during the Reconstruction era
- Many blacks went to schools established by northern missionary societies, the Freedman's Bureau, and groups of ex-slaves in order to learn to read
- The Reconstruction era witnessed the creation of the nation's 1st black colleges such as Fisk University, Hampton Institute, and Howard University

Political Freedom

- The right to vote became central to former slaves' desire for equality
- Black spokesmen insisted that anything less than full citizenship would betray the nation's democratic promise and the war's meaning
