

SUPER-POWERED

McCULLOCH PROFESSIONAL CHAIN SAWS

550 DIRECT DRIVE

Take this saw out in the woods or onto a construction site where big power is a must, and you'll see how it's engineered to cut all day, any other day. It has automatic chain and bar oiling with a separate manual system should you need added oil for extra tough cutting jobs. Finger tip primer gives instant starts, while its air governor reduces sprocket, safe idling. Reversible cylinder, weather-resistant sprayer, and 40:1 fuel mix with McCulloch's 2-cycle blend are all standard on all McCullochs.

McCULLOCH Does It Again! Easy-Pull, 2-Finger Starting with **DSP**

795 DIRECT DRIVE

DSP is short for *Do Starting Pull*. And that's the shortest way to ever starting on your 795. It actually takes 50% less pull to start the 795, making it the easiest, easiest starting professional direct drive chain saw available. In addition, you get automatic bar and chain oiling with a separate manual system, finger tip primer, air governor, reversible cylinder, 40:1 fuel mix, power boost carburetor and many more professional features. See details on reverse side.

DSP EASY-PULL STARTING on the 795 and 995 not only takes the pain out of starting, but it means safer starts with either hand in any saw position. Just push the lever, pull the starter rope, and DSP does the rest. There's one feature you're not yet to try to believe.

When the DSP lever is pressed, a port opens in the cylinder. Compression isn't needed during starting action because this opening effectively shortens the stroke. As engine starts, the port is closed by lever action to restore maximum compression for full power cutting.
