Question 1

(a)   median $= 174$ (cm)   *A1*   *N1*
                                                                                                                                                                  [1 mark]

(b)   attempt to find number shorter than 161   *(M1)*
          e.g. line on graph, 12 boys

$$p = \frac{12}{200} \quad (= 0.06)$$ *A1*   *N2*
                                                                                                                                                                  [2 marks]

(c)   **METHOD 1**

          18 % have a height less than h *(A1)*

          $0.18 \times 200 = 36$ (36 may be seen as a line on the graph)   *(A1)*

          $h = 166$ (cm)   *A1*   *N2*
                                                                                                                                                                  [3 marks]
          METHOD 2

          $0.82 \times 200 = 164$ (164 may be seen as a line on the graph)   *(A1)*

          $200 - 164 = 36$ *(A1)*

          $h = 166$ (cm)   *A1*   *N2*
                                                                                                                                                                  [3 marks]
