

End-of-the-Year Test Grade 3 Answer Key

Instructions to the teacher:

My suggestion for grading is below. The total is 207 points. A score of 166 points is 80%.

Grading on question 1 (the multiplication tables grid): There are 169 empty squares to fill in the table, and the completed table is worth 17 points. Count how many of the answers the student gets right, divide that by 10, and round to the nearest whole point. For example: a student gets 24 right, $24/10 = 2.4$, which rounded becomes 2 points. Or, a student gets 85 right, $85/10 = 8.5$, which rounds to 9 points.
