*Never Ending Nightmare* Pierre Dardot, Christian Laval, 2019-04-16 How do we explain the strange survival of the forces responsible for the 2008 economic crisis one of the worst since 1929 How do we explain the fact that neoliberalism has emerged from the crisis strengthened When it broke a number of the most prominent economists hastened to announce the death of neoliberalism They regarded the pursuit of neoliberal policy as the fruit of dogmatism For Pierre Dardot and Christian Laval neoliberalism is no mere dogma Supported by powerful oligarchies it is a veritable politico institutional system that obeys a logic of self reinforcement Far from representing a break crisis has become a formidably effective mode of government In showing how this system crystallized and solidified the book explains that the neoliberal straitjacket has succeeded in preventing any course correction by progressively deactivating democracy Increasing the disarray and demobilization the so called governmental Left has actively helped strengthen this oligarchical logic The latter could lead to a definitive exit from democracy in favour of expertocratic governance free of any control However nothing has been decided yet The revival of democratic activity which we see emerging in the political movements and experiments of recent years is a sign that the political confrontation with the neoliberal system and the oligarchical bloc has already begun
