

Team Building Lesson Plan

Topic

Team Building

Overview and Purpose

The Center for Children and Technology, in their *Adventures in Supercomputing 1993-1994 Evaluation*, found that "the size of the group a student worked in, and the sex of the students in that group, are important factors in the type of project work a student is able to accomplish in AiS." Furthermore, "groups of two or three students, and particularly all-female or mixed-sex groups, were most likely to achieve the integration of content understanding and mastery of computational strategies...."

This module provides the participants with methods to help their students develop the interpersonal skills necessary for successful team membership.

Requirements

Class Time

Total time for activity -- 45-60 minutes

Presentation to group -- 20 minutes

Lab time -- 20-40 minutes

Materials

Instructor's station with computer and projector

Computer lab for online activities

Handouts for activities

Personality Types

Characteristics of a penny

Sub-arctic survival

Or other team building activities

Objectives

Upon completion of this lesson a participant will be able to:

- Explain the benefits of multiple perspectives and diverse skills in solving real world problems;
- Explain the benefits of teamwork as well as the problems of teamwork;
- Teach students conflict resolution techniques;
- Teach students to divide work among themselves;
- Teach students the reasons to be responsible and constructive ways to hold each other accountable;
- Motivate students to work collaboratively.
