WHAT IS LINES PAPER?

Lines paper is simply having lines on the printing and bookbinding industry. Lines paper has been the industry's standard during and ever since the 1980s, when an additional printer took a portion of type and converted it to make a line specimen book. It has remained not only the standard, but also the way the industry is printing, meaning constantly changing. It was popularized in the 1980s with the release of several sheets and forms, lines paper packages, and more recently with desktop publishing software like Adobe Photoshop including versions of lines paper.

WHAT DO WE USE IT?

It is a long established fact that a reader will be distracted by the outside content of a page when looking at its layout. The point of using Lines Paper is that it has a more or less normal distribution of letters as opposed to using "Content here, content here", making it look like readable English. Many desktop publishing packages and web page editors now use Lines Paper as their default layout text, and a search for "lines paper" will come up with many web sites in their infancy.

WHERE DOES IT COME FROM?

Contrary to popular belief, Lines Paper is not simply random text. It has
