are quotations in academic papers taken from only secondary sources problematic? Sandra Intemann, 2016-07-15 Essay from
 the year 2016 in the subject Philosophy Practical Ethics Aesthetics Culture Nature Right grade 1 3 Leuphana Universit t L
 neburg Wissenschaftsethik language English abstract To find out whereas quotations in academic articles and or
 monographs solely out of secondary and not primary sources are problematic from the perspective of academic ethics in
 general and business ethics in particular one will first have a closer look on the key terms An academic article is a scientific
 text published in a scientific journal and supervised by other scientists A monograph is a scientific text about a single subject
 by one author Sources are distinguished in primary and secondary sources primary sources are scientific research results
 which are published at first hand containing Secondary sources refer to a primary source which was published by another
 author and not collected by the author himself For an evaluation of the use of the sources in a business or academic
 environment ethical standards and moralities are used Within academic ethics sscientists have the duty to act responsibly
 and to define moralities for their practice and the way they do research and publish their results On the other hand the
 business ethics defines right or wrong behaviour in a business context To discuss whereas the use of secondary sources is
 problematic one will analyse the involved parties which are the users of the sources the author of the primary source the
 author of the secondary source and the scientific community Within all parties involved in the problem there is always a least
 privileged party according to John Rawls On the one hand using solely sources could be interpreted as one kind of plagiarism
 even if the source is cited correctly Further the readers do not make an own effort into research because she takes the easy
 way out using solely secondary sources The readers have to wonder whether it is legitimate to rely on the author of the
 secondary source that he summarized analysed etc the primary source correctly It would have a massive negative impact on
 academic and business ethics if the author of the secondary source made a mistake in summarizing analysing or wrong
 conclusion drawing As a result wrong information would be used for following work in business areas or research in

academic areas On the other hand the access to primary sources may be difficult or even not possible so the use of a secondary source is the only way to use the information Further one has to wonder whether it is it legal to intervene to solely use secondary sources as it violates the copyright law **International Student of the World Problem of Alcoholism** ,1928 **The International Student of Liquor in Life Today** ,1926 The Paper Mill and Wood Pulp News ,1902 Sessional Papers - Legislature of the Province of Ontario Ontario. Legislative Assembly,1905
