Java Web Services Programming Rashim Mogha,V. V. Preetham,2002-09-05 A must have for any serious Java developer this title enables readers to build web services for next generation applications with Sun s new Web Services pack for Java 2 Web services are the future of web application development Web services are a crucial element in emerging platforms from Sun Microsoft IBM HP and others Covers building web services with Sun s Web Services pack Leading software development tool vendors including Borland Software Corp Oracle Corp and WebGain Inc as well as Sun s Forte™ tools group plan to integrate the Web Services Pack into their Java IDEs Written by Java developers at leading technology training company NIIT USA *PRO WEB SERVICE*, Ben Galbraith,2002-12-17 Web Services is a paradigm that has evolved over the years With successful demonstration of its proof of concept Web Services are gradually moving towards occupying an important mechanism for e commerce because of the industry s awareness of its potential for integration Security is a not only a prime requirement to implement e business but also an important concern due to the fact that Web Services can penetrate through firewalls **Application of web service technologies on a b2b communication platform by means of a pattern and UML based software development process** Arnd Schnieders,2003-10-02 Diploma Thesis from the year 2003 in the subject Computer Science Software grade 1 0 A Technical University of Berlin Computer Science Open Communication Systems language English abstract There are about 230 000 establishments in the Spanish hotel restaurant and catering industry accounting for a turnover of about 15 6 thousand million euros All of them sell food to private consumers On the other hand suppliers and traders supply the catering trade with food and beverage products Usually the different players in this food distribution network trade products by means of orders which are placed manually This is a process which can be enhanced through the application of computer and Internet technology A project lately also supported by the Spanish government is supposed to fill this gap This project is called Catanet and has been established three years ago Actually the Catanet platform is used by more than 100 customers amongst them very important industry players like Lauren Films Pepsi Unilever and Nestle Some of them will carry out a significant part of their overall food orders by the Catanet platform which corresponds to a turnover volume of many million euros In the former version of the Catanet platform clients had to apply a web page based interface in order to use the Catanet services As this approach prohibited the full exploitation of the benefits the use of

computer assistance provides e.g. human participation still constitutes an inevitable and crucial part of the transaction the interaction is completely asynchronous an additional level is being added to the Catanet platform eliminating these shortcomings During the time of this work the number of Catanet customers has grown explosively increasing also the diversity of the customer s computer systems Additionally new subprojects could be launched due to the acquisition of a government grant These encompassed among others new value added services demanded by the customers like an instant messaging module and a module for the automatic update of the local product catalog The characteristics of the IT infrastructure of the new customers which will carry out transactions with a serious turnover via the Catanet platform and the necessity to integrate the new subprojects required an adaptation of the design of the platform prototype which had been developed by this time and which is described in this work
