The Two-in-one Rod Michalko, 1999 When Rod Michalko's sight finally became so limited that he no longer felt safe on busy city streets or traveling alone he began a search for a guide The Two in One is his account of how his search ended with Smokie a guide dog and a dramatically different sense of blindness Few people who regularly encountered Michalko in his neighborhood shops and cafes realized that he was technically blind like many people with physical disabilities he had found ways of compensating for his impairment Those who knew about his condition thought of him as a fully realized person who just happened to be blind He thought so himself Until Smokie changed all that In this often moving always compelling meditation on his relationship with Smokie Michalko probes into what it means to be at home with blindness Smokie makes no judgment about Michalko's lack of sight it simply is the condition within which they work together Their partnership thus allows Michalko to step outside of the conventional and even enlightened understanding of blindness he becomes not simply resigned to it but able to embrace it as an essential part of his being in the world Drawing on his training as a sociologist and his experience as a disabled person Michalko joins a still small circle of scholars who examine disability from the inside More rare still and what will resonate with most readers is

Michalko's remarkable portrayal of Smokie avoiding sentimentality and pathos it is a deeply affectionate yet restrained and nuanced appreciation of his behavior and personality From their first meeting at the dog guide training school Smokie springs to life in these pages as a highly competent sure footed take charge full speed ahead indispensable partner Sighties are always in awe watching them work Michalko has even persuaded some of them that the Smokester can locate street addresses but has a little difficulty with odd numbers Readers of *The Two in One* can easily imagine Rod and Smokie sharing the joke as they continue on their way Author note Rod Michalko is Adjunct Professor of Sociology Department of Anthropology and Sociology St Francis Xavier University
