Mad Forest Script

Michael Seilmaier

Mad Forest Script:

The Conscience of Humankind, 2021-11-22 The traumatic experiences of persecution and genocide have changed traditional views of literature The discussion of historical truth versus aesthetic autonomy takes an unexpected turn when confronted with the experiences of the victims of the Holocaust the Gulag Archipelago the Cultural Revolution Apartheid and other crimes against humanity The question is whether and if so to what extent literary imagination may depart from historical truth In general the first reactions to traumatic historical experiences are autobiographical statements written by witnesses of the events However the second and third generations the sons and daughters of the victims as well as of the victimizers tend to free themselves from this generic restriction and claim their own way of remembering the history of their parents and grandparents They explore their own limits of representation and feel free to use a variety of genres they turn to either realist or postmodernist ironic or grotesque modes of writing

Playwright Versus Director Sidney Berger, 1994-08-30 Giving equal space to the sanctity of script and the artistic freedom of directors this book addresses the difficulties encountered by playwrights and directors as they bring a script to the stage Inspired directors can help a writer of genius turn his play into exciting theatre but playwrights find that giving directors leeway to interpret and modify text can result in directors overriding authorial intentions This book presents the best that has been written by literary theorists on the current definitions of text and attempts to depart from quick rule of thumb assessments of the problem Drawing from definitive articles in literary and theatre journals part one gives the reader basic concepts and terminology Interviews with playwrights and directors showing the complexity of the issue appear in part two and part three includes case studies of playwrights and directors who faced production crises Legal aspects of collaboration are considered in part four The book concludes with a positive approach and possible solution to the problem
