

# What is a Good Impact Factor for a Journal?

A journal impact factor is a metric that assesses the citation rate of articles published in a particular journal over a specific time – that's usually 2 years.

# Journal Impact Factor 2014

**Michael Gabay**

## Journal Impact Factor 2014:

**Handbook of Research on Administration, Policy, and Leadership in Higher Education** Mukerji, Siran, Tripathi, Purnendu, 2016-09-27 The creation of a sustainable and accessible higher education systems is a pivotal goal in modern society Adopting strategic frameworks and innovative techniques allows institutions to achieve this objective The Handbook of Research on Administration Policy and Leadership in Higher Education is an authoritative reference source for the latest scholarly research on contemporary management issues in educational institutions and presents best practices to improve policies and retain effective governance Addressing the current state of higher education at an international level this book is ideally designed for academicians educational administrators researchers and professionals

**New Publication Cultures in the Humanities** Péter Dávidházi, 2025-10-01 The changes we have seen in recent years in the scholarly publishing world including the growth of digital publishing and changes to the role and strategies of publishers and libraries alike represent the most dramatic paradigm shift in scholarly communications in centuries This volume brings together leading scholars from across the humanities to explore that transformation and consider the challenges and opportunities it brings

other materials that the reader can adapt for their own practice Also available in an on line version which provides numerous additional reference and research tools additional multimedia and powerful search functions Each topic includes cross referencing to related articles and case studies where further explanation is required along with references to external sources for further reading

**Evolution and Phylogeny of Bees** John D. Plant,Hannes F. Paulus,2016 Volume 161 of Zoologica reviews and analyses the evolution and phylogeny of bees It is subdivided into two parts Part One A Preamble to the Evolution and Phylogeny of Bees provides a complete and critical review of all previous attempts to reconstruct the phylogenetic tree of bees Anthophila Apiformes based on morphological bionomic and molecular approaches and pre sented in chronological sequence up to and including recent publications At the same time the introductory part examines trends in the classification of bees and compares available hypotheses of bee evolution Part One closes with a family wise delineation of the fossil history of bees Part Two A Phylogenetic Study of Bees in Light of Morphological Evidence adds an experimental study to complement the bibliographical analysis provided in Part One The phylogenetic relationships of the larger taxonomic units of bees are tested anew using an extensive dataset of selected morphological features The study uses all common and current computer aided techniques of cladistic analysis parsimony successive implied weight Bayesian and neighbor joining which are applied to representatives of all seven families 22 subfamilies and 48 of 58 tribes of bees The conclusions drawn from this are evaluated for the major groups i e short tongued and long tongued bees and separately for the families subfamilies and tribes in each case In a world currently dominated by molecular genetic approaches to phylogeny this study clearly demonstrates that it is not anachronistic to engage in morphological efforts because progress can be significantly advanced and the pool of available scientific arguments enriched The diversity of the object of investigation justifies a variety of methods This monograph is a much needed reference work of high practical value for all students of bee evolution phylogeny and morphology Further it is ideally suited as good introductory reading material for university level students

**Nigerian Journal of Social Sciences** ,2015 *Impact Factor Journals in 'Statistics and Probability' Updated in 2014* by ISI. *CERN Courier* ,2015 *Trolling behavior in the European and American patent system. The impact of regulatory and private containment measures on practicing and non-practicing entities* Joscha P. Bartmann,Jonas M. Schulz,2017-08-29 Research Paper postgraduate from the year 2016 in the subject Law Miscellaneous grade 1 0 University

of Kaiserslautern course Patentrecht language English abstract This work investigates the behavior of patent trolling entities in the European German and American patent system Legislative judicial executive and private measures with the intent to contain the rent seeking and abusive conduct of patent trolling entities are discussed Moreover the impact of these measures on other entities in the patent system are examined The most efficient measures are assumed to show a high selectivity and a strong impact on the business model of the trolling entity while negative effects on other entities are minimal or non existent and positive effects are preferred According to these requirements suitable measures to increase the patent quality like improving the patent examination processes of the patent office or the inter partes and the post grand review are debated Furthermore the introduction of a peer to patent network or Patent Investment Trusts PIT are examined To cut through growing patent thickets the collaboration with patent pools or patent pledges is proposed At last the differences between the European German and American patent system regarding their vulnerability to trolling entities are elucidated In the end containment measures against patent trolling behavior should selectively target the business model of patent trolling which is expected to arise from the weak spots of the patent system
