It is responsible for keeping a person's fluids balanced and putting fluids into the blood. It is also responsible for making leukocytes and antibodies to help fight infection and disease. A chart of how the lymphatic system works would show you all the capillaries, vessels, and nodes that make up the system. Some charts will even show you in detail how things flow in and out of each node and filter out through the body. *Kinn's Medical Assisting Fundamentals: Administrative and Clinical Competencies with Anatomy & Physiology - E-Book* Brigitte Niedzwiecki, 2026-01-03 Master the clinical and administrative competencies you need to succeed as a medical assistant. *Kinn's Medical Assisting Fundamentals 3rd Edition* covers the administrative and clinical knowledge, skills, and procedures that are essential to patient care.
