Developing and Evaluating a Cloud Service Relationship Theory Jan Huntgeburth, 2014-08-21 This book develops evaluates and refines a cloud service relationship theory that explains how cloud users uncertainties arise in these relationships and how they can be mitigated To that end the book employs principal agent theory and the concepts of bounded rationality and social embeddedness Beyond advancing IS research the findings presented can greatly benefit governments IT departments and IT providers helping them to better understand cloud service relationships and to adjust their cloud service strategies accordingly

Reconfiguring Class, Gender, Ethnicity and Ethics in Chinese Internet Culture Haomin Gong, Xin Yang, 2017-02-17 New information technologies have to an unprecedented degree come to reshape human relations identities and communities both online and offline As Internet narratives including online fiction poetry and films reflect and represent ambivalent politics in China the Chinese state wishes to enable the formidable soft power of this new medium whilst at the same time handling the ideological uncertainties it inevitably entails This book investigates the ways in which class gender ethnicity and ethics are reconfigured complicated and enriched by the closely intertwined online and offline realities in China It combs through a wide range of theories on Internet culture intellectual history and literary film and cultural studies and explores a variety of online cultural materials including digitized spoofing microblog fictions micro films online fictions web dramas photographs flash mobs popular literature and films These materials have played an important role in shaping the contemporary cultural scene but have so far received little critical attention Here the authors demonstrate how Chinese Internet culture has provided a means to intervene in the otherwise monolithic narratives of identity and community Offering an important contribution to the rapidly growing field of Internet studies this book will also be of interest to students and scholars of Chinese culture literary and film studies media and communication studies and Chinese society

Internet Directory for Dummies Brad Hill, 1997 With search engines like Yahoo Excite and Infoseek available on the Net users may wonder why they need an Internet Directory But a search term may yield thousands of results This well thought out book selects the best of Web sites categorizes them by topic and provides descriptions The bonus CD ROM contains links in electronic format so

readers can just click on the title *The Emerald Handbook of Computer-Mediated Communication and Social Media* Jeremy Harris Lipschultz, Karen Freberg, Regina Luttrell, 2022-06-27 Uniquely relating social media communication research to its computer mediated communication foundation as well as digital and emerging media trends this handbook is an indispensable resource whether you're a graduate student or a seasoned practitioner

Global Justice and the Politics of Information Sky Croeser, 2014-09-19 The global social justice movement attempts to build a more equitable democratic and environmentally sustainable world However this book argues that actors involved need to recognise knowledge including scientific and technological systems to a greater extent than they presently do The rise of the Occupy movement the Arab Spring and the Wikileaks controversy has demonstrated that the internet can play an important role in helping people to organise against unjust systems While governments may be able to control individual activists they can no longer control the flow of information However the existence of new information and communications technologies does not in itself guarantee that people's movements will win out against authoritarian governments or the power of economic elites Drawing on extensive interviews and fieldwork this book illustrates the importance of contributions from local movements around the world to the struggle for global justice Including detailed case studies on opposition to genetically modified crops in the south of India and the digital liberties movement this book is vital reading for anyone trying to understand the changing relationship between science technology and progressive movements around the world This book will be of interest to students and scholars of International Politics Social movements Global Justice and Internet politics
