

## Forecasting your plans

### Locating your credit centres

Consider the locations that should be established to ensure the most efficient use of your credit facilities.

### Adapting for market values

Forecast market values. It is essential to identify your debt portfolio and to adjust it to the current market value. In this regard, consider a range of debt instrument combinations to manage a portfolio.

### Adapting for legal values

Take account of legal values when forecasting. The value of debt instruments may differ from their face value, and the forecast should take account of this. Consider the impact of legal values on the forecast.
