for the following Go EFI Systems:

30000 - Go Street EFI System

This Quick Start Manual is designed to get you up and running with the Go Street Kit and either the 30000 Fuel Command Center or the 30000 Inline Fuel Delivery Kit. The FiTech Go EFI System is the industry's most advanced throttle body EFI system and also the easiest to install. It includes a very advanced manifold Computer but is also capable of being far more flexible than any

competitive product that utilizes a manifold Computer. Please read the full instruction manual before beginning your installation.

These instructions cover the basic kit installation and setup as well as general instructions for both of the optional Fuel Delivery Kits. For technical assistance with your Go EFI System, call 951-345-2524.

Warning: Caution must be observed when installing any product involving fuel system parts or gas lines. Modifications should be a well-ventilated area with an approved fire extinguisher readily available. Eye goggles and other safety apparel should be worn to protect against debris and sprayed gas-

es. We recommend having this installation performed by an experienced qualified automotive technician. The fuel system installation must be thoroughly checked for any fuel system leaks. All safety precautions must be observed when working with fuel. **Note:** Do not use wild wire splicing wires.
