Goals for International Financial Management

Globalization of the World Economy: Major Trends and Developments

- Emergence of Globalized Financial Markets
- Emergence of the Euro as a Global Currency
- Europe's Sovereign Debt Crisis of 2010
- Trade Liberalization and Economic Interconnection

AS THE TITLE *International Financial Management* indicates, in this book we are concerned with financial management in an international setting. Financial management is mainly concerned with how to optimally make various corporate financial decisions, such as those pertaining to investment, financing, dividend policy, and working capital management, with a view to achieving a set of given corporate objectives. In Anglo-American countries as well as in many advanced countries with well-developed capital markets, maximizing shareholder wealth is generally considered the most important corporate objective.

Why do we need to study “international” financial management? The answer to this question is straightforward: We are now living in a highly globalized and integrated world economy.
