- 2) Applied research, which is effort aimed at using basic research for solving problems or developing new processes, products, or techniques.

Introduction To Research:

Introduction to Research Methods Bora Pajo, 2017-07-28 *Introduction to Research Methods A Hands On Approach* makes learning research methods easy for students by giving them activities they can experience and do on their own. With clear, simple, and even humorous prose, this text offers students a straightforward introduction to an exciting new world of social science and behavioral research. Rather than making research seem intimidating, author Bora Pajo shows students how research can be an easy, ongoing conversation on topics that matter in their lives. Each chapter includes real research examples that illustrate specific topics that the chapter covers, guides that help students explore actual research challenges in more depth, and ethical considerations relating to specific chapter topics.

Introduction to Research Methods in Education Keith F Punch, 2009-03-19 Based on the popular *Introduction to Social Research Methods*, this book offers a highly accessible, clear, and engaging introduction to research in education, which has been carefully and extensively developed to fully meet the needs of those studying in education and related fields. *Introduction to Research Methods in Education* assumes no previous knowledge of the subject and focuses on helping the reader develop a clear conceptual understanding of the nature of empirical research in education and of how those ideas lead to and underlie the principal research techniques. Qualitative, quantitative, and mixed methods approaches are covered, along with practical guidance on issues such as how to prepare a research proposal, write a literature review, and analyse different types of data. This book is an ideal introduction to researching in an educational context for students at both undergraduate and postgraduate level and will be a must-have for anyone studying on a research methods course or doing a research project for themselves.
