Handbook of Western Australian Aboriginal Languages South of the Kimberley Region Nick Thieberger,1993 Gives location variant spelling classification linguistic situation research and bibliographic information for all languages in regions south of Kimberleys notes on Aboriginal English and Kriol extensive annotated bibliography indexes to variant language spellings and to linguists Dreamtime Superhighway Jo McDonald,2008-08-01 DREAMTIME SUPERHIGHWAY presents a thorough and original contextualization of the rock art and archaeology of the Sydney Basin By combining excavation results

with rock art analysis it demonstrates that a true archaeology of rock art can provide insights into rock art image making in people's social and cultural lives. Based on a PhD dissertation this monograph is a significantly revised and updated study which draws forcefully on rich and new data from extensive recent research, much of it by McDonald herself. McDonald has developed a model that suggests that visual culture such as rock artmaking and its images and forms could be understood as a system of communication as a way of signaling group-identifying behaviour. For the archaeologist of art, the anthropologist of art, and those of us who try to think about past worlds, this monograph is a must read.

Constitutional Law in Belgium André Alen, David Haljan, Willem Verrijdt, 2020-09-22

Derived from the renowned multi-volume *International Encyclopaedia of Laws*, this very useful analysis of constitutional law in Belgium provides essential information on the country's sources of constitutional law, its form of government, and its administrative structure. Lawyers who handle transnational matters will appreciate the clarifications of particular terminology and its application. Throughout the book, the treatment emphasizes the specific points at which constitutional law affects the interpretation of legal rules and procedure. Thorough coverage by a local expert fully describes the political system, the historical background, the role of treaties, legislation, jurisprudence, and administrative regulations. The discussion of the form and structure of government outlines its legal status, the jurisdiction and workings of the central state organs, the subdivisions of the state, its decentralized authorities, and concepts of citizenship. Special issues include the legal position of aliens, foreign relations, taxing and spending powers, emergency laws, the power of the military, and the constitutional relationship between church and state. Details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for both practising and academic jurists. Lawyers representing parties with interests in Belgium will welcome this guide, and academics and researchers will appreciate its value in the study of comparative constitutional law.
