Advancing Self-Directed Learning in Higher Education Mncube, Dumsani Wilfred, Maphalala, Mncedisi Christian, 2023-05-01 Self directed learning SDL is considered a core concept in problem based learning PBL and student centered learning More importantly the current face to face model of curriculum implementation faces many challenges that seem to question its dominance over other models The violent nature of the COVID 19 pandemic has again vindicated SDL practitioners and research enthusiasts to continue seeking solutions that will enhance skills to cope in a rapidly changing technological globalized world However the higher education sector is challenged when promoting SDL due to a slow pace of digital integration since the education system is not fully transformed This has necessitated an urgent need for global discourse on how universities globally are implementing SDL strategies to enhance the quality of curriculum delivery Advancing Self Directed Learning in Higher Education provides insight into various strategic approaches that could be adopted for the successful implementation of SDL in higher education It is written for professionals who want to improve their understanding of how to improve student teaching and learning and the quality of curriculum implementation in higher education In this realm this book provides ideas to its readers about the approaches pertaining to strategy and innovative measures practical implementations and tools in the field of curriculum and SDL Covering topics such as educational technology intentional education practice theory and student experience this premier reference source is an essential resource for teachers policymakers lecturers research scholars students of higher education administrators librarians academicians and researchers

Teaching and Learning for Change Ingrid Schudel, Zintle Songqwaru, Sirkka Tshiningayamwe, Heila Lotz-Sisitka, 2021 Like many national curricula around the world South Africa s curriculum is rich in environment and sustainability content Despite this environmental teaching and learning can be challenging for educators This comes at a time when Sustainable Development Goal 4 via Target 4.7 requires governments to integrate Education for Sustainable Development into national education systems Teaching and Learning for Change is an exploration of how teachers and teacher educators engage environment and sustainability content knowledge methods and assessment practices an exposition of quality education processes in support of ecological and social justice and sustainability The chapters evolve from a ten year research programme led out of the DSI NRF SARChI Chair in Global Change and Social Learning Systems working with national partners in the Fundisa for Change programme and the UNESCO Sustainability Starts with Teachers programme They show the integration of education for sustainable development in teacher professional development and curricula in schools in South Africa They reveal how university based researchers teachers and teacher educators have made theoretically and contextually reasoned choices about their lives and their teaching in response to calls for a more sustainable world in which education must play a role Teaching and Learning for Change will be of interest to education policymakers in government advisors and educators in educational and environmental departments NGOs and other

institutions It will also be of interest to teacher educators teachers and researchers in education more generally and environment and sustainability education specifically
