Life Orientation Task 2 2014 Papers:

Physical Activity and Sport During the First Ten Years of Life Richard Bailey, Jennifer P. Agans, Jean Côté, Andy Daly-Smith, Phillip D. Tomporowski, 2021-04-12 Evidence suggests that the first 10 or so years of life create the foundation for subsequent participation in recreational and health related physical activity This book brings together researchers and practitioners with expertise in issues related to physical activity physical education and sport during the primary elementary phase of schooling to explore these important issues Combining inter disciplinary perspectives the book addresses the inherent complexity of researching with young children It looks at the evidence on development during the first 10 years and how that evidence relates to physical activity and to sport in pre school school and out of school Finally the book offers a series of national case studies from Asia Europe and Africa demonstrating the importance of age appropriate sport and physical activity This is important reading for any student researcher educator or policy maker with an interest in physical activity and health education in the early years or at primary elementary level paediatric exercise science or youth sport

Expanding Boundaries: Systems Thinking in the Built Environment Guillaume Habert, Arno Schlueter, 2016-08-15 Consuming over 40% of total primary energy the built environment is in the centre of worldwide strategies and measures towards a more sustainable future To provide resilient solutions a simple optimisation of individual technologies will not be sufficient In contrast whole system thinking reveals and exploits connections between parts Each system interacts with others on different scales materials components buildings cities and domains ecology economy and social Whole system designers optimize the performance of such systems by understanding interconnections and identifying synergies The more complete the design integration the better the result In this book the reader will find the proceedings of the 2016 Sustainable Built Environment SBE Regional Conference in Zurich Papers have been written by academics and practitioners from all continents to bring forth the latest understanding on systems thinking in the built environment

Ethics in the Zhuangzi Xiangnong Hu, Yong Huang, 2024-10-16 This book delves into a broad range of hitherto unresolved issues related to Zhuangzi's ethics which include but are not limited to the fundamental question of whether Zhuangzi should be regarded as a moralist in the ordinary sense and what Zhuangzi's views on topics such as equality moral relativism good life intersubjective relations and social harmony really are The twelve contributors to this book deliberate on these issues in six debates centering on recent influential publications in the field In each debate the relevant publications will be first challenged by their critic and then defended by their author through which different and competing interpretations of Zhuangzi's ethical themes will directly confront each other These author meets critic debates will not only reflect what is currently at stake in discussing Zhuangzi's ethics but also engage and enrich the state of the field today This volume serves as a good companion to scholars as well as graduate level students who are interested in gaining philosophical and ethical insights from Zhuangzi and Chinese philosophy in general
