

Accounting Chapter 16 brief exercises and exercises

Solutions Guide: This is meant as a solutions guide. Please try reworking the questions and reword the answers to essay type parts so as to guarantee that your answer is an original. Do not submit as your own.

acob Potter

Brief Exercises

1. During the year, Coronado Boat Yard has incurred manufacturing costs of 420,000 in building three large sailboats. At year end, each boat is about 70 percent complete. How much of these manufacturing costs should be recognized as expense in Coronado Boat Yards income statement for the current year? Explain?

Coronado Boat Yard should not recognize any of the manufacturing costs on their year-end income statement. These are product costs and as a result, will not appear on the income statement until the boats are sold and the revenue is earned.

2. During the current year, the cost of direct materials purchased by a manufacturing firm was \$340,000, and the direct materials inventory increased by \$20,000. What was the cost of direct materials used during the year?

Direct materials used is \$340,000 less the \$20,000 increase in the ending balance of direct materials or \$320,000.

3. A company that assembles trucks produces 60 trucks during the current year and incurs \$3 million of material, labor, and overhead costs. Fifty-three trucks were sold during the year and each is allocated the same amount of costs. How much of the \$3 million assembly costs should appear on the company's income statement for the current year?

Product costs per truck: $\$3,000,000 \div 60 = \$50,000$

Costs recognized due to matching: $53 \text{ trucks sold} \times \$50,000 = 2,650,000$

The company should recognize \$2,650,000 in product costs in the current year income statement.

4. Hula's Heavyweights, Inc., is a company that manufactures forklifts. During the year, Hulas purchased \$1,450,000 of direct materials and placed \$1,525,000 worth of direct materials into production. Hula's beginning balance in the materials inventory account was 320,000. What is the ending balance in Hula's Materials inventory account?

| Direct Materials Inventory | |
|-------------------------------------|--------------------------------------|
| Balance, 1/1 | \$ 320,000 |
| Purchases of direct materials | \$ 1,450,000 |
| Balance, 12/31 | \$ |
| | Direct materials used \$1,525,000 |
