The Multiverse as Theory in Postmodern Speculative Fictional Narratives Angélica Cabrera Torrecilla, Francisco Sáez de Adana, 2024-11-15 The Multiverse as Theory in Postmodern Speculative Fictional Narratives considers the concept of the multiverse beyond the immediacy of being merely an excuse or scenario for the development of stories instead positioning the multiverse as a theoretical method in which speculative fiction narratives can explore diverse issues to bridge ideas across cultural social and philosophical analysis Taking a cross cultural approach the book centres around the critical engagements that literary and media texts have with the representations of the multiverse beyond considering this subject as a mere rhetorical flourish or a passing fad A diverse and international team of authors engage with the multiverse from the point of view of other worlds understanding it not as the appearance of another independent world but as the collision of two or more different worlds into one of them From this key finding the multiverse encourages us to pay attention to the influence that fiction exerts on narratives and world building providing possible frameworks to rethink critical aspects of temporality space self society and culture in contemporary times This pioneering work will interest students and scholars working in the areas of media and cultural studies comparative literature popular culture studies speculative fiction and transmedia studies

Global Perspectives on Project-Based Language Learning, Teaching, and Assessment Gulbahar Beckett, Tammy Slater, 2019-10-08 This volume provides a comprehensive account of project based language learning PBL which showcases key theoretical approaches empirical research technological tools and research based frameworks to help further PBL implementation and research Taking its cue from the conclusions drawn from project based learning more broadly which point to the impact of project based work on learning and development discourse socialization subject engagement and collaborative skills the book highlights how these discussions might be extended and enhanced within the context of language learning The volume begins with discussions of philosophical and theoretical models of PBL and is followed by case studies from contributors from a range of learning contexts and geographic regions which demonstrate these models in practice with a focus on the implementation of technology in such instances The book also introduces resources for aligning projects with government standards in the classroom but also frameworks for researching and assessing PBL This comprehensive collection is essential reading for students and researchers in language learning and teaching language education curriculum design and applied linguistics

American Fiction: Edgar Allan Poe, Edward Everett Hale, Washington Irving, Francis Bret Harte, Nathaniel Hawthorne, Mark Twain William Allan

Neilson,1917 **The Harvard Classics Shelf of Fiction** William Allan Neilson,1917 *The Harvard Classics Shelf of Fiction, Volume 10* Edgar Allan Poe,Edward Everett Hale,Washington Irving,Francis Bret Harte,Nathaniel Hawthorne,Mark Twain,1917 **The Politics and Poetics of Translation in Turkey, 1923-1960** Şehnaz Tahir Gürçağlar,2008-01-01 The present book is a bold attempt at revealing the complex and diversified nature of the field of translated literature in Turkey during a period of radical socio political change On the broad level it investigates the implications of the political transformation experienced in Turkey after the proclamation of the Republic for the cultural and literary fields including the field of translated literature On a more specific level it holds translation under focus and explores the discourse formed on translation and translators while it also traces the norms not observed by translators throughout the 1920s 1950s in two case studies The findings of the study suggest that the concepts of translation both affected and were affected by cultural processes in the society including ideological and poetological ones and that there was no uniform way of defining or carrying out translations during the period under study The findings also point at the segmentation of readership in early republican Turkey and conclude that the political and poetological factors governing the production and reception of translations varied for different segments of readers **Fiction** Edgar V. Teller and Tale in Joyce's Fiction John Paul Riquelme,1983

Although bemused readers might claim that *Finnegans Wake* is totally unlike anything they've seen before John Paul Riquelme argues that it is quite closely related to all the rest of Joyce's fiction indeed that it represents the ultimate elaboration of the styles techniques and concepts that appear throughout the author's work Questioning conventional notions of chronological development Riquelme looks backward from *Finnegans Wake* to *A Portrait of the Artist as a Young Man* *Stephen Hero* *Dubliners* and *Ulysses* in that order He draws upon recent developments in literary theory concerning narrative style and reading to explore the relationship of the early works to later ones Rather than follow traditional critics in their dismissal of Joyce's stylistic experiments as aberrations from a realistic norm Teller and Tale argues that the changes over time in the author's expressive style indicate a protracted effort to overturn the conventions of realism in the novel Particular attention is given to Joyce's use of the artist as character and narrator his linking of ends to beginnings his styles and his attempts to present the source of writing Teller and Tale in Joyce's Fiction traces a complex double movement in James Joyce's literary career as the writer sought to express both individual and collective consciousness in his work By looking at Joyce's entire literary output and at *Finnegans Wake*'s its conclusion and epitome Riquelme clarifies these narrative goals and helps us understand Joyce's struggle to bring them to the surface Jacket
