Horne,2016-04-22 How did the flat characters of eighteenth century children s literature become round by the mid nineteenth While previous critics have pointed to literary Romanticism for an explanation Jackie C Horne argues that this shift can be better understood by looking to the discipline of history Eighteenth century humanism believed the purpose of history was to teach private and public virtue by creating idealized readers to emulate Eighteenth century children s literature with its impossibly perfect protagonists and its equally imperfect villains echoes history s exemplar goals Exemplar history however came under increasing pressure during the period and the resulting changes in historiographical practice an increased need for reader

engagement and the widening of history's purview to include the morals, manners, and material lives of everyday people find their mirror in changes in fiction for children. Horne situates hitherto neglected Robinsonades, historical novels, and fictionalized histories within the cultural, social, and political contexts of the period to trace the ways in which idealized characters gradually gave way to protagonists who fostered readers' sympathetic engagement. Horne's study will be of interest to specialists in children's literature, the history of education, and book history.
