Proactive-reactive, robust scheduling and capacity planning of deconstruction projects under uncertainty Volk, Rebekka,2017-02-08 A project planning and decision support model is developed and applied to identify and reduce risk and uncertainty in deconstruction project planning It allows calculating building inventories based on sensor information and construction standards and it computes robust project plans for different scenarios with multiple modes constrained renewable resources and locations A reactive and flexible planning element is proposed in the case of schedule infeasibility during project execution

Designing Assistant Technology Christopher Noessel,2026-03-17 When artificial intelligence is designed poorly it diminishes people s skills rather than enhancing them It can even make users less capable and more dependent on AI In *Designing Assistant Technology* Christopher Noessel provides a framework for how to use AI to assist users as well as mitigating the risks of de skilling and overreliance on AI Who Should Read This Book This book was written with four audiences in mind Product owners and technology strategists who want to ensure that the software they offer is doing everything it can for users and their organizations Interaction designers user experience professionals educators and students who will build and inform the

direct experiences with these systems Futurists and tech sector pundits who might want to understand that AI is only as dark as they let it become Everyone else because part of the responsibility of being a citizen is building literacy in the major forces at play what biases those forces have and what needs to be done to combat negative effects Takeaways You ll learn to Understand the conceptual difference between an agent and an assistant Better understand your business s challenges and how AI can help Incorporate the book s framework into an existing design process De risk how assistants are introduced to a workflow Learn design patterns to mitigate the risks of assistants Rely on AI assistants just enough but not too much
