

# Fall Prevention Guidelines

---

## Introduction

Falls are a significant concern for older adults, impacting their independence and quality of life. This guide provides comprehensive fall prevention strategies to help healthcare practitioners and caregivers reduce the risk of falls.

---

## What are the 5 P's of fall prevention?

### Predict

Identifying risk factors that contribute to falls in community-dwelling older adults through regular assessments.

### Prevent

Implementing strategies such as exercise programs, medication reviews, and home modifications to mitigate fall risks.

### Protect

Using assistive devices and educating older adults and their caregivers on fall prevention strategies to enhance safety.

### Perform

Conducting regular risk assessments and monitoring to ensure that fall prevention measures are effective and up-to-date.

### Partner

Collaborating with healthcare professionals, family members, and community resources to create a supportive network for fall prevention.

---

## WHO guidelines for fall prevention

The World Health Organization (WHO) has developed comprehensive guidelines to reduce falls among older adults, focusing on person-centered approaches, recent e-health developments, and implementation in low-resource settings. Recommendations include advising all older adults on fall prevention, conducting risk assessments, and implementing personalized interventions.

### Objectives

The primary objective of the WHO guidelines is to create evidence- and consensus-based fall prevention and management recommendations that are suitable for older adults globally. These guidelines are intended for use by healthcare and other professionals and focus on:
