Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994, as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency, the South African Police Service (SAPS), that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations.

Mediascapes of Ruined Geographies in the Global South Diego Granja do Amaral, A. Chukwudumebi Obute, 2023-08-15 This book undertakes an interdisciplinary and cross-cultural interrogation of the Global South through the prisms of media and cultural studies. It closely explores the quotidian re-territorialization and brazen ruination of the material geographies of this vast expanse of the world by forces and proxies of neo-colonialism and global capitalism of resource extraction. We cite the ongoing expulsion of Palestinians from their homelands by occupational forces, the emerging detritus dump across Mexico City and Lagos, the infrastructural precariousness of the favelas of Brazil, the unending resource war in the Democratic Republic of Congo (DRC), and the flagrant operation of the oil industry in the Niger Delta region of Nigeria as examples of this geographic cataclysm. The centripetal forces of neo-colonialism and resource extraction at full flight in the Global South, aided by toxic hegemonic forces, have overtly tossed some of the population to the peripheries of existence and the society at large. As such, this book additionally explores the resistance of the subalterns from the margins to this socio-political malaise and further unmasks the knowledge production from these margins of the Global South. This project is divided into five parts, each of three essays. The first part examines the territorial contestation in the Middle East, framed and expressed through films and literary lenses. The second part examines the environmental burden of modern consumerism and urbanization on metropolises across Mexico, Brazil, and Nigeria, while the third part explores the attritional violence of resource extraction in the DRC, Brazil, and Nigeria via filmic and journalistic lenses. The fourth part offers a swift response from the margins through ethnographic and journalistic interrogation of the subjectivity of the subalterns of Brazilian favelas and street artists. The fifth part offers an

engaging critique of the political climates of South Africa and Brazil that reinforce the environmental catastrophe of the regions of the world

**Bombardier Abroad** David P. Thomas, 2018-10-10T00:00:00Z In *Bombardier Abroad* Thomas examines several cases of the Canadian aerospace giant's work in the high speed rail sector in South Africa, China, Tibet and Israel, Palestine and argues that these projects are deepening existing social and political tensions. By participating in these infrastructure projects, Thomas argues, Bombardier is both inserting itself into highly contested social and political climates and profiting from actions that further exacerbate existing conditions of dispossession and inequality. Thomas also examines the various ways in which the Canadian state supports the work of Bombardier in these countries. Centred around a theoretical framework that combines concepts of dispossession, political economy and important interventions from the field of settler colonial studies, *Bombardier Abroad* is a critical look at the problematic practices of a Canadian corporation and the ways in which the Canadian state is culpable.

**Handbook of Research on Implications of Sustainable Development in Higher Education** Meletiadou, Eleni, 2023-02-10 Research in the field of education for sustainable development (ESD) is of growing concern to meet the needs of the diverse student populations in various higher education institutions. People around the world recognize that current economic development trends are not sustainable and that public awareness, education and training are key to moving society toward sustainability. Although ESD continues to grow both in content and pedagogy and its visibility and respect have grown in parallel, education officials, policymakers, educators, curriculum developers and others are called upon to rethink education in order to contribute to the achievement of the goals of sustainable development in higher education. The *Handbook of Research on Implications of Sustainable Development in Higher Education* provides insight regarding the implications of ESD for teaching, learning and assessment in higher education and demonstrates the value of adopting an ESD lens by broadening and strengthening the evidence base of the impact that this can make for students, educators and society as a whole. Covering key topics such as assessment, globalization and inclusion, this reference work is ideal for university leaders, administrators, policymakers, researchers, scholars, practitioners, academicians, instructors and students.
