How to Build a Toy Train Table
Madeline Binder,2020-11-17 This DIY step by step train table plans will show you how to easily build an extremely sturdy
wood table in 3 hours Save up to 75% by building your own Included in the plans are photos of tables from builders who have
built the table in their apartment house porch garage or backyard It can also be used as an activity table Preschool teacher s
love this table because it is so sturdy The playable plans are compatible with Brio Thomas the Tank Engine and Lego train
sets Specs 491 2 L x 32 W x 22 H The height is adjustable by making the table legs longer or shorter Some builders have
decreased or increased the size of the table When by grandson was 2 years old in 2001 I designed this train table so he could
have a place to play with this toy trains He and his siblings used the table for a total of twelve years and then it was donated
to a nursery school It is still as sturdy as the day we built it Parents grandparents brothers sisters cousins and friends have
used these plans to build a table for their young loved ones Testimonial Heather Billerica MA USA My Dad built the table for
our son He said the plans were very easy to follow and built in an afternoon I used a train stencil and some acrylic paints and

hand painted the train cars on the two long sides A cheap letter stencil was used to paint All Aboard I randomly painted water grass and rocks on the table top I think it turned out fantastic The best part is it didn't cost anywhere near the price that are sold in stores It is very sturdy and my son just loves it I got a cheap under the bed train trundle and it fits nicely under the table Now our son has his train tracks set up all the time No pulling it apart and putting it back together again day after day I would advise anyone who is looking for a train table to get these plans Testimonial Wendy Charlotte NC USA This was my first big project that I built from scratch We live in an apartment so we didn't have a garage or the like to do construction work yet I was able to do much of it in our living room I did sand and stain it on our porch I stained the table pecan to match our son's bedroom furniture I painted the top freehand with acrylic paints then sealed it I am so very happy I chose to do this project We have a 21 2 and a 31 2 year old running around here The trains will come for Christmas so now we are playing with safari animals matchbox cars etc on it and are enjoying every minute It is very sturdy we will be enjoying it for a long time to come Testimonial Steven Maidstone Kent England I made Madeline's table for my 3 year old son Rowan for his birthday He loves it and has played with it every day To my surprise I have had difficulty convincing some of our friends that it's not from a shop I made the table slightly smaller than your plans because the average house in England is somewhat smaller than in the U S Testimonial Michele's Husband Brampton Ontario Canada Matthew our 4 year old son is getting a lot of pleasure out of the train table his daddy made him My husband found it was very easy to Our local building store cut the wood using your dimensions We stained it to match the wood in our home and customized the table with cut outs from a Thomas the Tank Engine peel and stick wall paper border The plastic storage containers underneath hold my son's train equipment plus other toys We have had hours of fun together playing with his train set Now I do not have to bend down on the floor anymore LOL This table will grow with our son's interests too electric trains race car tracks Lego the possibilities are endless
